

ABSOLUTE FACILITY SOLUTIONS, LLC

Absolute Facility Solutions, LLC (AFS) is a Consulting firm that specializes in the implementation of Workplace (IWMS), Facility and Asset Management software.

Providing application expertise and guidance from the very early planning stages to the maintenance of the system in the years ahead. With a combined 80+ years of experience in the industry, we help organizations streamline their processes and organize their information in a tool that allows them to manage their day-to-day more effectively. We have been serving customers since 2015, are Headquartered in Austin, TX with offices all over the U.S. and are woman-owned.

As a Value Added Reseller for iOffice + SpaceIQ products, we are very active in the user community. We support User Group meetings, work closely with Texas A&M and their FM Programs (educating students on the value of Technology in Facility Management and introducing them to Archibus through a group project) and sponsor a local FM organization. Owner, Michelle Ray also sits on multiple committees and the Women's Business Council - Southwest's board of directors.

PRODUCTS WE WORK WITH

WHAT OUR CLIENTS ARE SAYING

"To have a "Trusted Advisor" in the AFS Team providing the ability to listen, broad industry knowledge and skill to interpret communications between all vendors within the project has been paramount to the success for The State of Texas Department of Public Safety Archibus project." - Victoria Madero – Director Facilities Administration

"I am incredibly excited about the progress we've made during the two-day in person training. Not only was the training incredibly helpful at this stage of our Archibus implementation it helped the team and I better understand the future capabilities as we increase our implementation going forward."

To the AFS Technical Manager - thank you for your expert advice and help during this training. Having you in person with us assisted in getting our Archibus workflow started and working out the characteristics that are unique to our organization. We are excited to continue working with you as your expertise has been a key asset in this roll out." - Main contact within a Texas University
